

Green Schools; Clean environment; Healthier Life

## MISSION REPORT

### ACTION: SCHOOL VISIT

#### Monitoring - September 2014

On 20.02 and 21.02.2014, the Project team (Project Coordinator and Local Coordinator) made school monitoring visit in 8 educational institutions that participated on the green- project in the Small Grants Program.

The program, is available for schools of the Struga/Ohrid and Prilep/Bitola region .

This schools , with this program, have the opportunity to apply for certain amount of financial support (500 euros), in order to realize practical environmental project. The projects must be oriented toward innovative and sustainable solutions, contain actions for savings of the 3 eco-Topics (water, energy and waste) and include the six step methodology.

In December/January 2013, the schools were selected and started to implement the programme .

The purpose of the visit of these educational institutions was giving brief overview about the program and send the message for the importance of the realization of the Cross-Border Program, between R. Macedonia and Albania.

Firstly they should make an Eco-team, at least two students of each class, using the eco-steps and eco methodology, will gain new skills how to approach to reach visible results in saving water and energy, will start recycle, select and reuse waste. They received questionnaires for initial analysis of the school situation related to the 3 topics of the program, completed and reviewed together all findings which served as a tool for locating problems in school and for setting priorities in their improvement and possible solutions. The training for the teachers is designed to guide them through the program, which is scheduled to happen in the first week of April 2014. Also the training will include tutorials and workshops for easier implementation and realization.

In addition here is a list from the schools that were visited:

No.	School	Municipality
1.	P.S. Todor Angelevski	Bitola
2.	P.S. Sv. Kliment Ohridski	Ohrid
3.	P.S. Grigor Prlicev	Ohrid
4.	P.S. Rampo Levkata	Prilep
5.	P.S Blaze Koneski	Prilep

The Programme is co-financed by the EU. This communication reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained in.

Green Schools; Clean environment; Healthier Life

6.	P.S Dobre Jovanoski	Prilep
7.	P.S Goce Delcev	Struga
8.	P.S Josip Broz Tito	Struga

We were pleasantly welcomed, and we especially appreciated the positive attitude and interest of selected schools.

The monitoring was realized by Chalovska Bisera and Aleksandra Mladenovksa, representative of Civil Association OXO.
